# Viability Assessments and Management Considerations for Species Associated with Late-Successional and Old-Growth Forests of the Pacific Northwest

The Report of the Scientific Analysis Team

# Abbreviations and Acronyms

BLM	Bureau of Land Management (USDI)
CA	California
FEIS	Final Environmental Impact Statement
FS	Forest Service (USDA)
ID	Idaho
KLAM	Klamath
NSO	Northern Spotted Owl
OG	Old Growth
OR	Oregon
RHCA	Riparian Habitat Conservation Area
SAT	Scientific Analysis Team
S&G's	Standards and Guidelines
SPP	Species
T&E	Threatened and Endangered (Species)
USDA	United States Department of Agriculture
USDI	United States Department of the Interior
USFWS	United States Fish and Wildlife Service (USDI)
WA	Washington

In this report, any reference to "owl" or "spotted owl" refers to the northern spotted owl (*Strix occidentalis caurina*) unless specifically identified as another species or subspecies.

Viability Assessments and Management  
Considerations for Species Associated  
With Late-Successional and  
Old-Growth Forests of the  
Pacific Northwest

March 1993

Jack Ward Thomas, Leader  
Martin G. Raphael, Assoc, Leader  
Robert G. Anthony

James R. Sedell  
David M. Solis

# Viability Assessments and Management Considerations for Species Associated with Late-Successional and Old-Growth Forests of the Pacific Northwest

## Table of Contents

Chapter 1 - Introduction, Synthesis of the Scientific Analysis Team Report, and Observations	
The Assignment .....	0
Results .....	11
Management Options Other Than Scientific Analysis Team’s Suggestions .....	25
Restrictions on Manager’s Decision Space .....	27
Appendix 1-A An Historical Perspective on the Evolution of the Spotted Owl Issue and Its Incorporation Into <i>de facto</i> Forest Management Policy .....	31
Chapter 2 – Effects of Exempting Thirteen Bureau of Land Management Timber Sales From Requirements of the Endangered Species Act on Viability Assessments in the Final Environmental Impact Statement	
Introduction .....	55
Purpose of the Analysis .....	56
Methods .....	56
Results .....	63
Summary and Conclusions .....	81
Reassessment of Viability Ratings for Each of the Final Environmental Impact Statement Alternatives .....	82
Recommended Mitigation Options .....	87
References .....	92
Appendix 2-A Instructions for the Scientific Analysis Team .....	95
Appendix 2-B Map of Mitigation Recommendations .....	101
Appendix 2-C Rationale for Recommended Mitigation Options .....	103
Chapter 3 - Effects of Bureau of Land Management Implementing Preferred Alternatives in Draft Resource Management Plans on the Viability Assessments in the Final Environmental Impact Statement	
Introduction .....	113
Purposes of the Analysis .....	114
Description of the Analysis .....	114
Methods .....	120
Scenarios Analyzed .....	120
Viability Evaluation Criteria .....	120
Results .....	121
Discussion Regarding Risk .....	145

## Table of Contents (continued)

Summary and Conclusions .....	151
Reassessment of Viability Ratings for Each of the Final Environmental Impact Statement Alternatives .....	152
Appendix 3~A Map of Mitigation Recommendations . . . : .....	163
Appendix 3-B Rationale for Recommended Mitigation Options .....	165
 Chapter 4 - New Information on the Northern Spotted Owl	
Introduction .....	173
Demographic Analyses .....	173
Dispersal Studies .....	179
Density Studies of Spotted Owls .....	180
Rates of Habitat Loss .....	182
Population Thresholds .....	186
Population Viability Models and Assessing the Transition Period .....	187
Hybridization With the Barred Owl .....	189
Owl Numbers and Distribution .....	190
Summary and Conclusions .....	192
References .....	195
Appendix 4-A Description of Banding Studies .....	199
Appendix 4-B Annotated Bibliography of Recent Research Information on Northern Spotted Owls .....	205
Appendix 4-C The Anderson and Burnham Report .....	243
 Chapter 5 - Risk Analysis Of Species in Old-Growth Forests of the Pacific Northwest: Viability Assessment and Mitigation Measures in National Forests	
Introduction .....	257
Methods .....	258
Results .....	271
Discussion and Conclusions .....	300
References .....	303
Appendix 5-A Terrestrial Vertebrates Associated With Late-Successional and Old-Growth Forests in National Forests Within the Range of the Northern Spotted Owl ("Long List") .....	305
Appendix 5-B Vascular Plant Species Closely Associated With Old-Growth Forests in National Forests Within the Range of the Northern Spotted Owl ( "Short List")	335
Appendix 5-C Fish Species and Stocks at Risk in National Forests Within the Range of the Northern Spotted Owl .....	345
Appendix 5-D Attributes of Terrestrial (Non-Fish) Vertebrates Closely Associated With Old-Growth Forests in National Forests Within the Range of the Northern Spotted owl ("Short List") .....	353
Appendix 5-E List of Expert Viability Panel Participants .....	385

## Table of Contents (Continued)

Appendix 5-F Invertebrate Species Closely Associated With Old-Growth Forests in National Forests Within the Range of the Northern Spotted Owl .....	389
Appendix 5-G Viability Ratings of Fish Stocks at Risk, Under the Five Final Environmental Impact Statement Alternatives .....	397
Appendix 5-H Species With Risk to Viability, All Taxonomic Classes, Closely Associated With Old-Growth Forests in National Forests Within the Range of the Northern Spotted Owl .....	399
Appendix 5-I Comparison of Species Lists of Terrestrial Vertebrates: Final Environmental Impact Statement and Scientific Analysis Team .....	417
Appendix 5-J Species for Which Information is Most Limited .....	421
Appendix 5-K Strategy for Managing Habitat of At-Risk Fish Species and Stocks in National Forests Within the Range of the Northern Spotted Owl .....	427
 Chapter 6 - Requirements for Successful Implementation	
Introduction" .....	485
Summary of Mitigation Strategy .....	485
Full Implementation .... ..	488
Interagency Coordination .....	494
Conclusions .....	494
References .....	496
 Acknowledgments .....	497
 Glossary .....	499
 List of Common and Scientific Names .....	525
